## DETAILED ACTION

### EXAMINER'S AMENDMENT

The application has been amended as follows:

Claims 32-50 are **CALNCELED** as drawn to an invention non-elected by applicants WITHOUT traverse.

### *Information Disclosure Statement*

The information disclosure statement filed on 11-17-2004 fails to comply with 37 CFR 1.97(c) because it lacks the fee set forth in 37 CFR 1.17(p). It has been placed in the application file, but the information referred to therein has not been considered.

Applicants should note that while the IDS contains a statement as specified in 37 CFR 1.97(e), this statement appears to be inconsistent with information available to the examiner. Applicants attention is drawn to US patents 6,511,217 and 6,391,234. Both of this patents issued more that a year earlier that the 11-17-2004 filing date of the IDS referenced above. Both the referenced patents cite US Patent 5,338,112 on the front page of the patents. Both of the patents '234 and '217 have at least one inventor in common with the instant application. Yet the certification states that to the knowledge of the applicants' representative, none of the documents cited in the IDS were previously known to any individual designated in 37 CFR 1.156(c), which explicitly lists inventors as individuals associated with filing or prosecuting a patent application. It appears that the applicants' representative erroneously included at least the above-mentioned US patent reference in the November 11, 2004 IDS filed in the instant

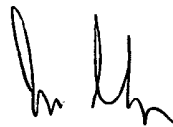

application. For the reasons stated above, the IDS dated November 17, 2004 was not considered by the examiner.
